

Meet Stan Finkelstein, PhD

Stan Finkelstein

Stan Finkelstein directs the TeleFamilies study. He is a Professor of Laboratory Medicine and Pathology/ Health Informatics with a background in biomedical engineering. His research interests are in patient remote monitoring in chronic diseases and home telehealth. His work emphasizes the development of patient-centered home based programs and moving them from the research laboratory to clinical

application. Dr. Finkelstein is a Fellow of the American Institute of Medical and Biological Engineering.

In his non-academic life he was a regular jogger around the Minneapolis lakes until his knees “told him” to cut back, so he is now an avid walker around the same lake trails. He follows the local sports teams, but as a ‘Brooklynite’ none compare to his recollection of the old Brooklyn Dodgers, who sadly were never the same once they moved to Los Angeles. He is an avid reader of the news from a variety of sources, and delights in visits and discussions with grandchildren, who all live out-of-state.

“Life is not measured by the number of breathes we take, but by the moments that take our breath away.”
— Maya Angelou

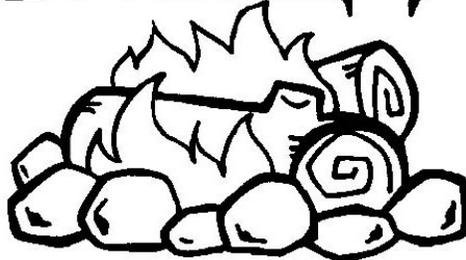

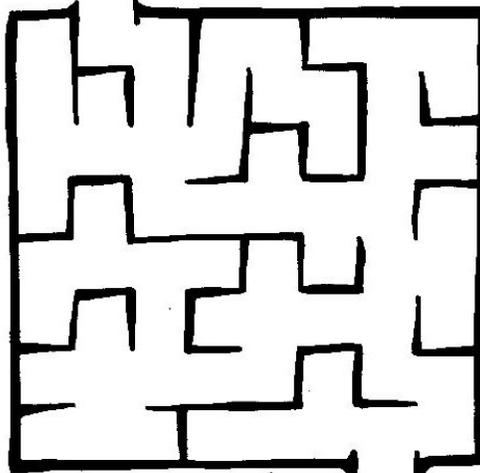

The TeleFamilies Team:

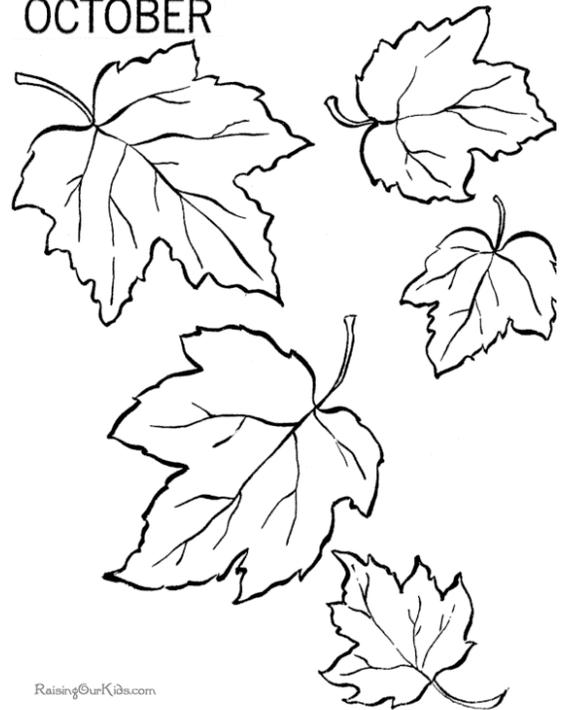

- ◆ Stanley Finkelstein, PhD
Project Director
- ◆ Ann Garwick, PhD, RN
Study Investigator
- ◆ Wendy Looman, PhD, RN
Study Investigator
- ◆ Carrie Pettey, MD
Study Investigator
- ◆ Anne Kelly, MD
TeleFamilies Consultant
- ◆ Hongfei Guo, PhD
Biostatistician
- ◆ Scott Lunos, MS
Biostatistician
- ◆ Mary Erickson, DNP, RN
Nurse Practitioner
- ◆ Rhonda Cady, PhD
Post-doc Research Fellow
- ◆ Margaret Celebrezze
Study Coordinator
- ◆ Cathy Erickson
Heidi Goeders
Sara Romanski
Research Assistants
- ◆ Lizzie Berndt
Student Intern
